

## Electric Main-to-Reserve Transfer Switch

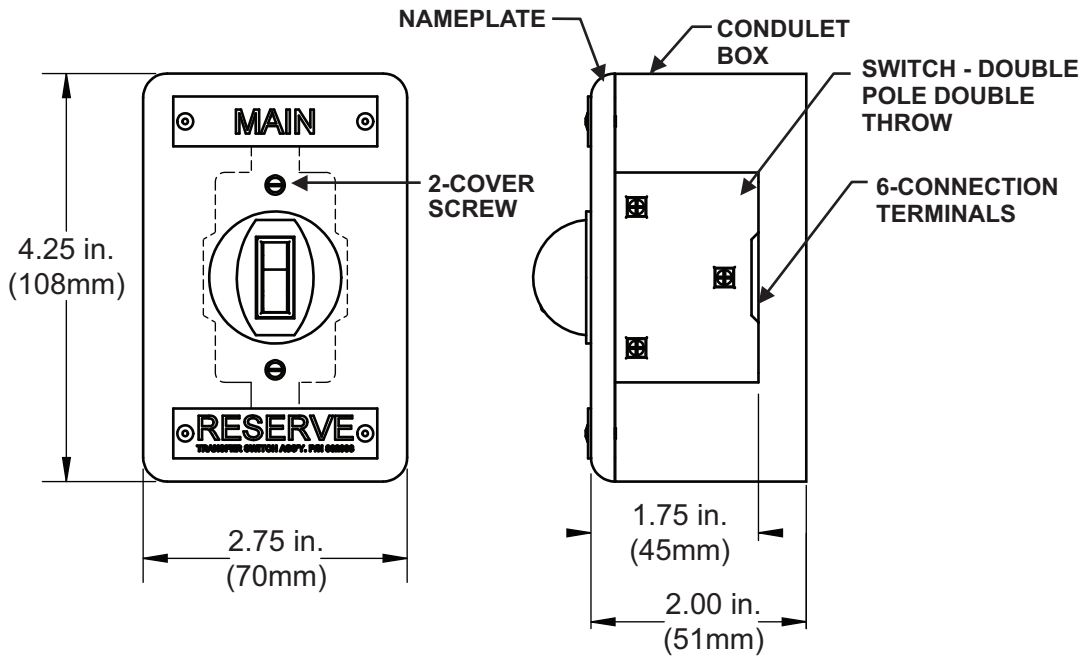

### FEATURES

- For Approvals, see the “Compatibility” table on page 2.

P/N: 85-802398-001

### DESCRIPTION

The main-to-reserve switch is installed on systems having main and reserve cylinders. Placing the switch in either the MAIN or RESERVE position provides uninterrupted fire protection during system maintenance or in the event of a system discharge.

Note: Dimensions are Typical Maximum to allow for adequate spacing for installation
