DESCRIPTION

The Large Capacity Battery Cabinet, P/N 76-100010-001, is designed to accommodate 12 volt sealed lead acid battery pairs up to 40-AH size. The cabinet is designed to be surface-mounted and must be located within 100 feet of the control unit.

The NEMA-1 Large Capacity Battery Cabinet is constructed of the same steel as all other available Kidde enclosures and is painted red. The door is hinged on the left and includes a keyed lock. Three conduit knockouts are provided at the top to accommodate either 0.5 in. or 0.75 in. standard electrical conduit fittings. An optional kit is available to convert the cabinet for seismic certification.

Batteries should be rated for standby power use and fit within the physical dimensions of the battery cabinet. The batteries must have terminals that accept standard ring-type solderless connectors.

CABINET DIMENSIONS
